Transforming your
workspace management

CLARITY CORE

A fully – comprehensive solution enabling workspace providers to maximise use of workspace, save resources and staff time. It supports multiple-occupancy management and licensing, handling offices, labs, and other workspaces, as well as contract generation and automated billing—including rental and service charge management—through to reporting and forecasting.

Focused on the sector specific operational processes with single and multi-facility support.

Multiple-occupancy management and licensing

Efficient facility & room scheduling, all bookable space can be associated with services, account contacts and all the details on recurring charges linked to the accounting system. E-sign capabilities for on-boarding and room bookings.

Sales pipeline management, contract generation and automated billing

The system maps the sales cycle from capturing of initial enquiries, arranging viewings, generating proposals, automated creation and processing of contracts, including renewals, through to invoicing.
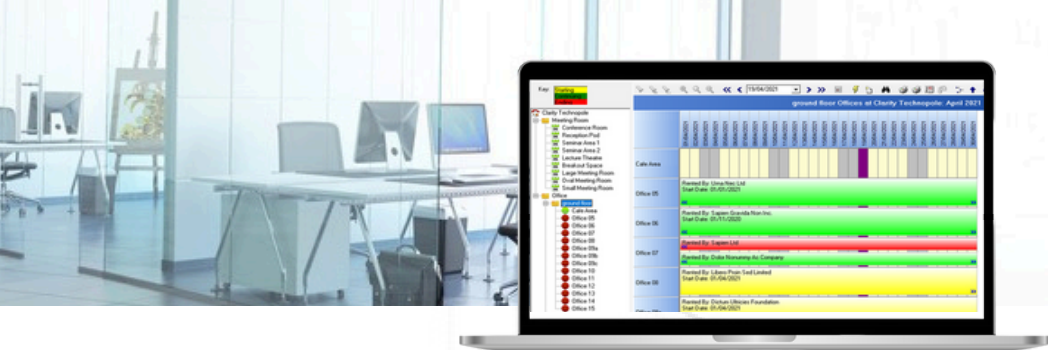

Customer interaction management

The platform helps to manage all customer contacts & communications with prospects and residents/members, it stores all current and former customer records, from contact details to entire sales history, interactions and services provided over time. All documents can be linked to an individual clients record for easy future reference.

Automated invoice generation

Automated invoice generation covers all periodic invoicing needs for rental and service invoicing and includes the ability to import charging files from 3rd party systems for services such as Call Charges, Photocopying and other Point of Sale systems. Meter readings can be recorded, and costs generated for billing inclusion. The system produces accurate invoice details and automatically calculates invoice amounts from the stored contracts and logged services.

Meeting, conference and event support

Management of your meeting, conference and event space through our real time availability diary. Creations of room bookings with associated services such as catering, business equipment and other available resources. Bookings may be configured with hourly, daily and attendee rates and include agreed discounts that will be automatically applied. Meeting rooms can be associated with other services such as catering and equipment, with all charges being logged to the booking and customers account for billing.

Sales financial management

Detailed itemisation of all sales, payments, adjustments and allocations processed through the systems Sales Ledger, including standard debt management functionality, plus integration with 3rd party accounting packages.

Business reporting and forecasting

Detailed business reporting and analysis with statistics on prospects and customers, office and meeting room occupancy, sales reports for various service utilisation. Samples are below:

Customisation & branding

Tailor your system to align with your unique business needs:

Wide variety of add-on modules, extensions & apps to choose from.

Option to add your data fields or specific metrics, drop-down menus and tick-boxes.

Workflow automation

Streamline repetitive tasks and processes by tailoring approval processes, setting-up push alerts and live updates saving time and resources while ensuring consistency and accuracy.

User permissions and access

Grant control over who can access what information and perform which actions within the software, based on individual roles and responsibilities, enhancing security and compliance.

Brand consistency across communications

Speed up document creation in Clarity Core by seamlessly integrating templates. Generate proposals, licenses, invoices, and letters swiftly, and incorporate e-signatures as needed. Add Word templates with predefined layouts, styles, and formatting options, including headers, footers, margins, font styles, and sizes. Ensure uniformity by crafting email templates, using your preferred fonts, colours and images for a consistent style across documents.
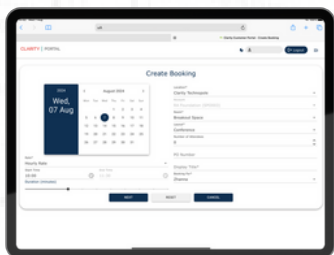

Integration with other systems inc. customer relationship management (CRM) systems, accounting software, lead imports, email integration and e-signatures.

CLARITY CORE & E-Signatures: Simplify onboarding & secure bookings

Streamline Client Onboarding

Tired of slow client onboarding and paperwork delays?

- Configure licence agreements to include e-signature fields for clients or partners.
- Send contracts directly from Clarity Core to inboxes—no pre-registration required.
- Monitor signature progress in real time and ensure all parties sign in sequence.
- Once completed, all parties receive the fully signed PDF via email.

Thanks to our partnership with electronic signature provider Signable, any document between two (or more) parties can be processed and signed securely from anywhere at any time.

Secure Room Bookings

Are last-minute cancellations affecting your revenue?

- Add e-signature to your booking confirmation terms to formalise the agreement.
- Provide an official, traceable commitment from clients to minimise cancellations.
- Reduce gaps in your schedule and protect your revenue stream.

Discover how our interactive solutions can simplify your workflows
